

BioPro Stem Technology

Leader in production and medical application
of autologous stem cells.

BioPro Stem Technology is concerned with research and consecutive practical application of newest biotechnological trends in medicine.

**BioPro Stem Technology
maintains complete
production cycle. From
research to growth of
mesenchymal stem cells to
practical application.**

Our company has received several awards that recognize our unwavering dedication to quality of service and maintaining our corporate principles.

A blue-tinted photograph of a string of grapes, likely a bunch of wine grapes, with the year '2015' overlaid in white text. The background is a deep blue, and the grapes are in focus, showing their individual clusters and stems.

2015

PARIS

A blue-tinted photograph of a string of grapes, likely a bunch of wine grapes, is shown in a shallow depth of field. The grapes are the central focus, with some in sharp focus and others blurred. The year '2017' is overlaid in a large, white, sans-serif font in the center of the image.

DUBAI 2017

DUBAI

**Our mission is to make
biotechnological advances
in medicine (mesenchymal
stem cell therapy in
particular) more available to
ordinary people**

Our company maintains a state-of-the-art laboratory that let us not only do research but also grow and extract cells on the premises. It's certified according to the industry standards.

**BioPro Stem Technology
also has a clinic, where
qualified specialists use
stem cell we've grown to
treat numerous conditions:**

**Neurological –
aftermath of
brain and spinal
cord traumas,
stroke, autism
spectrum
disorders**

**Cardiologic –
atherosclerosis,
cardiac ischemia
and the aftermath
of the myocardial
infarction**

Endocrinological –
diabetes type 1 and
2, autoimmune
thyroiditis, metabolic
disorders

Hepatological – hepatitis, cirrhosis of the liver

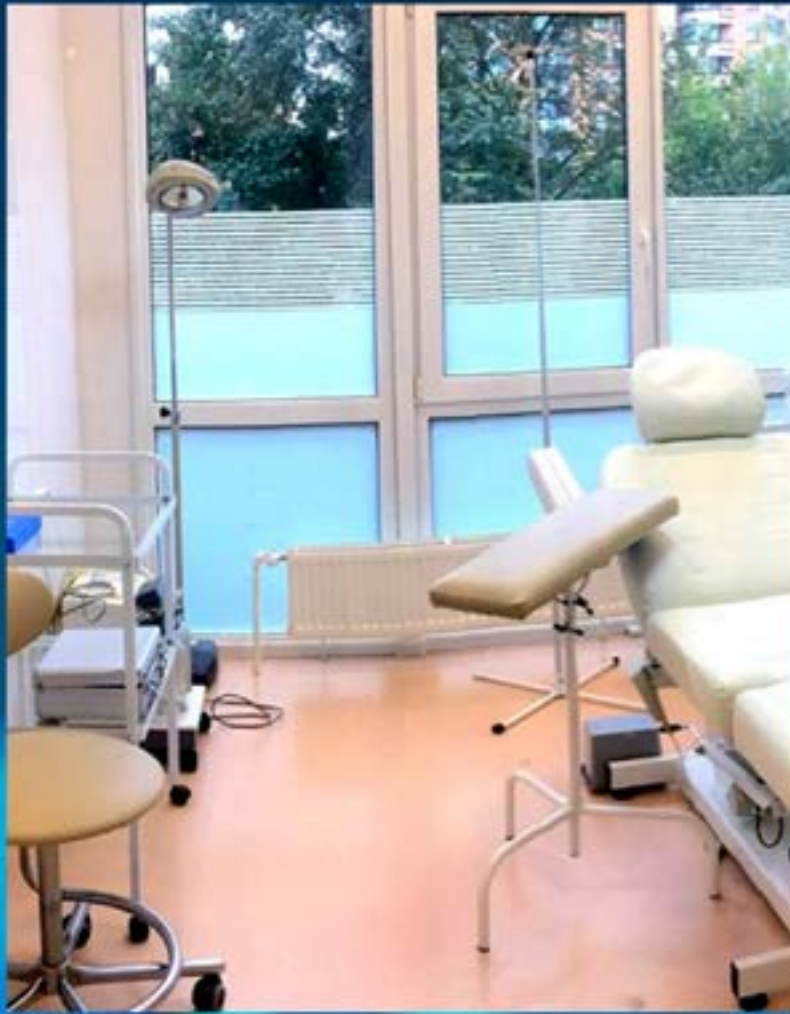

Ophthalmological
– traumas and
various atrophies
of the optic nerve

**Dermatologic –
psoriasis,
scleroderma**

**Musculoskeletal
system disorders**
– myopathies,
aftermath of
traumas, adhesive
traumatic
processes,
arthritides

We also work with organizations, both in Ukraine and abroad, dedicated to research and implementation of new stem cell therapy methods into practical medicine.

We, at BioPro Stem Technology do not intend to rest, despite our achievements. We already have plans to expand into European market within the foreseeable future.
