When it comes to this man, he can be considered born for sports. His life proves it. For Comrade Kamilov, sports is not only a profession, a task, working from month to month, but also a way to accumulate work experience before retirement, but a meaningful life.

Materials and methods

Kamilov Yuldash Tursunovich was born on February 1, 1947 in the city of Denau. In his biography - the documents state that the servant was born into a family. His father, Tursun Kamilov, was the director of the Denau district printing house before World War II. He later worked as an editor at the Red Denov newspaper. His mother, Khadija Abdulina, worked in a printing house for many ears. [1]

In 1953 he studied at the Lenin School in Denau, then at the Lomonosov Secondary School №1, and then at the H.H. Niyazi School for evening education. The dedication of Kabaev Mitkhat Talipovich and Migranov Gelmas Mengalievich, who worked as sports coaches at Yuldash Kamilov's school when he

was studying at Lamonosov's school, aroused great interest in physical culture and sports.

In the early 1960s, at the initiative of Migranov Gelmas Mengalievich, one of the sports coaches of the Lomonosov Secondary School №1, cycling competitions were organized on the Denau-Dushanbe route. Kamilov Yuldash regularly took part in these competitions.

In 1961, Yuldash Kamilov and several of his classmates were taken to the basketball team by one of the sports coaches, Musaniy Fesovich, and taken to the regional center to compete. They deservedly participated in this competition as well.

After graduating from the 8th grade, Kamilov Yuldash studied at the College of Physical Culture and Sports in Dushanbe in 1963-66. He first studied volleyball at the technical school. Then, on the recommendation of tennis coach Abramov Viktor Borisovich, he studied tennis at the technical school. After graduating from the technical school, Kamilov Yuldash was sent to Kulob in 1966 as a physical education teacher. In the first ear of his teaching career, he received a conscription. From 1966 to 1968 he served in the military in Belarus. [5]

After Kamilov Yuldash returned from the army in 1968, he joined OCW (Office chief work) as a sports methodologist on the recommendation of Fatkhulin Rafik Badriddinovich, chairman of the Spartak Voluntary Sports Society. He was such a state in large industrial enterprises at that time. During his tenure in this position, he built football and volleyball courts. He formed the football team of the Denau oil refinery "Kuruvchi". [10]

In 1970, on the initiative of the chairman of the Surkhandarya regional sports committee Varankov Evgeny Mikhailovich and the chairman of the Denau city sports committee Valashuk Vladimir Fyodorovich, the establishment of the Denau city sports school was entrusted to Kamilov Yuldash. Denau previously had a sports school for children and teenagers, with only five coaches. On March 3, 1970, a youth sports school was established under the Denau City Sports Committee. [8] Yuldosh Kamilov was appointed director.

Kamilov Yuldosh had a lot of difficulties in organizing the work of the sports school. The reason was that there was no material base at that time. Under such circumstances, a number of enterprising sports coaches were hired at the sports school. Since the sports school was established in March, it took a long time before it attracted sports coaches. The funds allocated in the annual budget for the purchase of a sufficient number of sports equipment were available. The head of the district's finance, Ismail Bozorovich, also transferred the saved monthly salaries to buy sports equipment. The chairman of the Pakhtakor society Kabaev Vazikh Asadovich, the chairman of the Denau city sports committee Valashuk Vladimir Fyodorovich, the chairman of the Spartak volunteer sports society Fatkhulin Rafik Badriddinovich also played an important role in the establishment of this sports school. Thanks to the efforts of Kamilov Yuldash, the building of the railway, which is currently vacant, was allocated for a sports school. Initially, the building brought all the equipment for 3 sports: weightlifting, boxing and national wrestling, and organized circles. An equestrian club was also established at the Akhunboboev collective farm at that time. [1]

Valashuk Vladimir Fyodorovich in weightlifting, Azam Abdullaev in national wrestling, Abdulla Hakimov in national wrestling and sambo started coaching at the sports school. Laverensky Aveninsov taught volleyball and Soy Vasiley taught boxing. The tireless hard work of their coaches gradually began to bear fruit. Pupils of the sports school began to achieve success in various competitions.

In those years, Fergana hosted the Republican Equestrian Championship. Fayzulla Buriev from Denau, who took part in it, became the republican champion. [1]

In 1971, an intercity spartakiad was held in Tashkent. The Denau team took part in the fourth zone (cities were divided into zones according to population). [2] Kamilov Yuldosh, Laverensiy Aveninsov, Plaston Anatoly, and Khairullo Ibragimov competed in volleyball as part of the Denau team. In this competition, the Denau team successfully participated in the national sports of wrestling, athletics, chess, volleyball.

This year, the chairman of the Surkhandarya regional sports committee Musaev Muhiddin Ismatovich instructed the Denau sports committee to hold the Republican championship on the Bukhara method of national wrestling. He stressed that the team will not come from Termez, and only two wrestlers will be sent. Thanks to the efforts of Hakimov Abdulla and Azam Abdullayev, coaches of the Denau Sports School, two teams were formed from Denau itself. Yuldashev Abdukayum and Hamza, who were sent from Termez, were also originally from Denau. Wrestlers from 7 regions of the country took part in the two-day competition. The first team from Denau took the 1st place, the second team took the 2nd place, and the team from Tashkent took the 3rd place. Yuldashev Abdukayum, the champion, and Hamza, the wrestler, took the second place. [8]

After this competition, Nabi (Jabbor) Mahmarasulov and Jaloliddin Ruzikulov from Denau were invited to Tashkent and included in the Uzbek wrestling team. They took part in the 5th Spartakiad of the Soviet Union in Moscow in 1972. Nabi Mahmarasulov took the 2nd place in sambo. [3]

Yuldosh aka worked for ten years (1972-1981) as a physical education teacher at the 6th secondary school named after G. Gulom in Denau.

From 1973 to 1974, at the initiative of the trade union of the Department of Public Education of Denau, Spartakiad competitions were held among teachers in the region. Comrade Kamilov participated in the Denau national team in volleyball and cross-country athletics. Due to the poor material base for sports in Termez, volleyball competitions were held in the circus building, not in the gym. [5]

For some time, Yuldash Kamilov also worked as a tennis coach at the Children and Youth Sports School of the Denau City Department of Public Education. At that time, the director of this sports school was Gennady Mekhailovich Migranov. He was a man devoted to sports. At the sports school, Kim Anatoly Andreyevich, Kabaev Mitkhat Talipovich were coaches in basketball, Matveev Olim Saidovich in handball, Abdulin Mansur Nizamovich in athletics. During his time working with this team, many athletes have grown up from sports school.

In 1978-1979, the Council of Ministers of the Uzbek SSR decided to develop tennis. At the initiative of Abdullaev Azam Abdullaevich, director of the Children and Youth Sports School under the Department of Public Education of Denau, a tennis

circle was opened at the 3rd secondary school named after MT Oybek, and Yuldosh Kamilov was invited as a specialist to manage this circle. In 1980, at the initiative of Kamilov Yuldash, the construction of a tennis court began at the school and was completed in 1981. Since that ear, Kamilov Yuldash has been working as a full-time tennis coach at the school. Kamilov Yoldosh also achieved great success during his coaching career. His students Tvetkovskaya Marina, Tvetkovskaya Lyuba, Muhammadi Mirzaev, Anvar Kadyrov, Kamilova Alisa, Komilova Sayyora and others deservedly took part in tennis competitions throughout the country. Later, his students Kamilov Akmal and Nasriddinov Otabek became regional champions in tennis. [5]

In the early 1980s, badminton was added to all sports at the Republican Spartakiad. At that time, the chairman of the Surkhandarya regional sports committee Kholboy Khurramovich Kamilov summoned Yuldash and appointed him coach of the Surkhandarya badminton team. [5]

Since 1981, Yuldash Kamilov has been the chairman of the Denau city and district committee for physical culture and sports for 19 ears. [1] During the chairmanship of the committee, under the leadership of Yuldash Kamilov, a number of works were carried out in the district and many sports achievements were achieved. He was instrumental in the construction of many gyms and sports grounds.

In 1982, in the first ears of his leadership of the Sports Committee, Yuldash Kamolov together with the coach of athletics Hayitboy Hojimurodov of the 2nd secondary school named after Y. Ohunboboev won the Republican competition "Cheerful Starts" with his students. In the same ear, the Denau City Sports Committee was instructed by the team of the 2nd secondary school named after Y. Ohunboboev "Cheerful Starts" to compete with the team of Latvia "Cheerful Starts" Bauskaya district. Before the match, the Latvian coaches Yaniz and Beruz came to Denau and got acquainted with the conditions for its holding and came to the conclusion that it does not meet the requirements. The reason is that the sports grounds are not built to the standard, and there are no stands for spectators. After that, Yuldash Kamolov talked to the Republican Sports Committee and received permission to hold the competition with Latvian athletes at the Yoshlik Sports Complex in Tashkent. [5]

Preparations for the competition have been going on for 6 months. Leonid Konstantinovich Petrov, chairman of the Spartak Voluntary Sports Association, Nikolai Grigorevich Chernov, coach of the Lomonosov School, Shamil Fazulyanov and Denov from Tashkent. Chairman Yuldash Kamolov was sent. Thorough preparation for the competition spoke for itself. The team from Denau "Cheerful Starts" defeated the team from Latvia "Cheerful Starts" 22-18. [5]

In the fall of 1983, the return match was scheduled to take place in the Bauska region of Latvia. Yuldash Kamolov headed the Denau team "Cheerful Starts" and its coaches to take part in the competition. He admitted that the Denau people, who visited a remote village in the Bauska region of Latvia, were shocked to see the conditions created for sports. The complex of sports grounds built there, 40x20 gyms built on a standard basis, grandstands for 300 people, swimming pools made a great impression on the people of Denau. [5]

At the beginning of the competition, on the initiative of the chairman of the sports committee of Bauskaya district Ivanov, the director of the secondary school No. 2 named after Y. Ohunboboev in Denau Davlatov Nurmat Ruzibaevich agreed to hold a friendly test exercise between Denau and Bauskai "Cheerful Starts". In this test exercise, under the guidance of Davlatov Nurmat Ruzibaevich, Denau lost to rivals to calm down.

In the main match, Denau's "Cheerful Starts" again defeated its Latvian rivals 24-16. Comrade Kamilov admitted that after the competition, a representative of the Latvian Council of Ministers spoke at the dinner table in honor of the guests and said without any greetings: "Asiatis we fell into a lesson in physical education, we will never forget it for this lesson, those who were involved in the preparation of this kamandi we will punish".

Even the bus to the Denau sports team to return from Latvia was deliberately delayed at the airport after the plane flew to Dushanbe, and the Denau residents were left behind. After that, Davlatov Nurmat Ruzibaevich appealed to the Latvian Sports Committee to comment on the situation, and the Denau athletes were sent through Leningrad in two rounds. [5]

At the initiative of Yuldash Kamilov, since 1985, Denau district and city level GTO standards have been passed not only by schoolchildren, but also by the leadership of all organizations. A charter has been developed for this. On April 24, 1985, the GTO standards were first adopted. All leaders took an active part in it. [6]

In February 1985, Yuldash Kamilov was awarded a certificate of honor by the Surkhandarya Regional Sports Committee for his selfless work in the field of sports. [5]

In the fall of 1987, the chairman of the regional sports committee, Leonid Borisov Semonovich, called Yuldash Kamolov and said that in 20 days the sports team of the Balkh region of Afghanistan would visit Denau. Preparations will begin immediately to welcome the guests. Sports grounds, stadiums, grandstands will be renovated and the hospitable team will be welcomed. In the sports competitions with the Afghans, the Denau football team will win. While there was a draw in chess, the guests dominated in table tennis and volleyball. [5]
