

Letter from the Editors

Dear colleagues,

From 2004, the presence of the Greek e-Journal of Perioperative Medicine among the National Scientific Journals has been gradually increased. On behalf of the editorial board of the *Greek e-journal of the Perioperative Medicine*, we would like to thank you for your support in order to reform and modernize our journal.

We would like to inform you that the *Greek e-journal of the Perioperative Medicine* is accepted in several indexing databases like **DRJI – Directory of Research Journal Indexing**, **Research Bible**, **GIF.org**, **Journal Index.net**, **INNOSPACE**, **Unifactor.org**, **MJL-Medical journals Links**, **ICMJE-International Committee of Medical Journal Editors**, **CiteFactor.org**, **ISI-International Scientific Indexing**, **EZB – Universitätsbibliothek Regensburg**, **OAJI – Open Access Journal Indexing**, **PBN-Polska Bibliografia Naukowa**, **ESJI- Eurasian Scientific Journal Index**, **ISRUS (EyeSource) – International society of Universal Research in Sciences**, **JIF – Global Society for Scientific Research and DOAJ – Directory of Open Access Journals**.

Application for indexing in several others is also under way. Some of them are: **ASI – Advance Scientific Index**, **Scopus**, **Google Scholar**, **Genamics JournalSeek**, **Academia.edu**. The journal has also received several evaluations from some of the aforementioned databases. Thus, e.g. the **Research Bible 2012 impact factor was 0.108**, the **GIF 2013 impact factor was 0.638** and **ISI 2014 impact factor was 1.931**.

Enquiry for the requirements of indexing in other databases (**PMC**, **Zetoc**, **CABI**, **etc**) is also in process. Hopefully we will be able to meet the requirements for obtaining **DOI number** for the journal and each published article.

We look forward to your continuous support, hoping to continue working in order to ensure high quality published articles in the area of medical press.
