

Erratum: in the paper “FONTOURA-DA-SILVA, V. et al.. Epibiotic community of *Tegula viridula* (Gastropoda: Trochidae) in southeastern Brazil. Strombus (São Paulo. Impresso), v. 18, p. 1-6, 2011” the Table 1 should be inserted.

Table 1. Epibiont species (algae, bryozoans, barnacles, polyplacophorans, polichaetes worm tubes and oysters) founded in *Tegula viridula* in Flexeiras beach, Itacuruçá Island (RJ, Brazil).

ALGAE		
Chlorophyta		
	Ulvophyceae	
		<i>Cladophora brasiliiana</i> G. Martens, 1866
		<i>Ulva prolifera</i> O. F. Müller, 1778
Rhodophyta		
	Florideophyceae	
		<i>Grateloupia</i> sp.
		<i>Gelidiopsis variabilis</i> (Greville ex J. Agardh) F. Schmitz, 1895
		<i>Gelidium</i> cf. <i>pusillum</i> (Stackhouse) Le Jolis, 1863
		<i>Gelidium</i> sp.
		<i>Chondracanthus acicularis</i> (Roth) Fredericq, 1993
		<i>Hypnea spinella</i> (C. Argardh) Kützing, 1847
		<i>Palisada perforata</i> (Bory de Saint-Vicent) K. W. Nam, 2007
	Compsopogonophyceae	
		<i>Erythrotrichia cárnea</i> (Dillwyn) J. Agardh, 1883
BRYOZOANS		
Ectoprocta		
	Gymnolaemata	
		<i>Watersipora</i> sp.
		Membraniporidae gen. sp.
BARNACLES		
Arthropoda		
	Crustacea	
		<i>Balanus improvisus</i> (Darwin, 1854)
		<i>Balanus</i> sp.
POLYPLACOPHORANS		
Mollusca		
	Polyplacophora	
		<i>Ischnochiton striolatus</i> (Gray, 1828)
POLICHAETES WORM TUBES		
Annelida		
	Polychaeta	
		Spirorbidae gen. sp.
OYSTERS		
Mollusca		
	Bivalvia	
		<i>Ostrea puelchana</i> (d'Orbigny, 1846)
