#### PEST CONTROL SERVICES

In terms of quality standards, environmental protection and occupational health and safety the company obtained and maintained the following certificates:

- the authorization certificate for Quality Management System, according to SR EN ISO 9001:2008 standard, certificate awarded by Lloyd's Register Quality Assurance;
- the authorization certificate for Environmental Management System, according to SR EN ISO 14001:2005 standard, certificate awarded by AERQQ;
- the authorization certificate for Health Management System, according to OHSAS 18001:2007 standard, certificate awarded by AERQQ;
- the First Class Licence awarded by A.N.R.S.C. (Regulatory Authority for Local Public Services) - which allows the company to perform pest control services within urban communities with more than 300.000 inhabitants.

The efforts made by the company have been rewarded on one hand by the continual growth of our client portfolio and on the other hand by acquiring rewards and diplomas of excellence from the Romanian Small and Medium Enterprises Council and of Prahova Commerce Chamber, and, on the other hand, this recognition exceeded the borders of our country. In 2007, the activity of our company has been internationally acknowledged by receiving the international "Leader in quality prestige TNA 2007" prize awarded by the trade magazine Actualidad from Spain and by the „Diploma of excellence for performance corresponding to European Union Standards" - awarded by the European Association of Craft, Small and Medium-Sized Enterprises. The same year, the company received the title of observer member within British Pest Control Association. In 2008, the company received the „Special Award for Impressive Results in Its Activity" - conferred by the World Association for Small and Medium Enterprises.

SC CORAL IMPEX SRL has been founded in 1993 and unfolds as its activity the pest control services. The considerable experience of its founder, his passion and desire to revolutionize the way

these services are performed in Romania, led the society to a continual and steadfast development. The Company developed steadfastly as the years passed by and, gradually, it developed partnerships with more than 30 city councils around the country, and, in order to be closer to the clients, it established ten branches in: Ploiesti, Cluj-Napoca, Bucuresti, Brasov, Targu Mures, Tulcea, Pitesti, Slatina, Alba Iulia and Zalau. During these years the company developed an impressive portfolio of clients, many of them maintaining the contractual relationship up to the present days.

In the following years, the company aims at nationwide coverage for pest control services and at steadfast increasing of trade turnover by acquiring new clients.

The opening of the Romanian market to numerous foreign investors, many world-renowned companies have opened production facilities in our country. Understanding that such investors need competent and reliable partners to perform pest control services, even from the beginning of its activity, the company has invested heavily in acquiring modern technology and in the thorough training of its employees, with special emphasis on the quality of work performed. Moreover, due to the peculiarities of certain clients, our society developed techniques of its own to perform pest-control services wherever the use of toxic chemicals is prohibited, succeeding to satisfy even delicate clients such as: Philip Morris Romania, Coca-Cola Romania, British American Tobacco, Interbrew Efes Brewery, and so on.
